

# ANNOUNCEMENT 1945-1946

ST. MICHAEL'S COLLEGE, WINOSKI PARK, VERMONT

# ST. MICHAEL'S COLLEGE

For the duration and until further notice, St. Michael's College will continue on an accelerated program. Since the end of the War will necessitate a revision of curricula plans, a new catalog is not being printed at this time. However, this bulletin, together with last year's catalog, will provide pertinent information for those planning to enter or reenter College this year. *For further information, write The Registrar, St. Michael's College, Winooski Park, Vermont.*

## ACCELERATION

Under the accelerated plan, a student may complete degree requirements in two full scholastic years and three summer sessions. Attendance at Summer Session for the duration is, therefore, obligatory.

## VETERANS

St. Michael's College is approved for Veteran training. Young men eligible for educational benefits under the so-called "G.I. Bill of Rights" (Public Law No. 346 or Public Law No. 16) may elect to begin or to complete their course of College training here.

Military experience and training will be evaluated in terms of College credit according to the recommendations and standards suggested by the American Council on Education.

It is expected that Veterans whose education was interrupted by the War will present problems which will have to be handled individually. Discharged service men who are planning to enter or re-enter College are invited to present their problem in writing or in person to the Dean or Registrar. A Faculty member conversant with Servicemen's legislation will then be appointed to advise them.

## **ADMISSION**

Regular admission is determined on the basis of 15 entrance units gained at an accredited 4-year high school *or* by successful performance on the College Entrance Board Examinations.

Admission of Veterans who cannot fulfill these requirements will be determined individually on the basis of Armed Forces Institute tests of General Educational Development.

NEW FRESHMAN CLASSES will be admitted on the following dates:

July 2, 1945; Sept. 17, 1945. Veterans or students who wish to be admitted for advanced standing should make application for admission as far in advance of the date they choose for entrance as possible. Civilian students entering from high school are urged to make preliminary application during the last semester of their senior year.

## **COURSES**

Students may elect Bachelor of Science, Bachelor of Arts, or Bachelor of Philosophy programs with major sequences chosen from the following: pre-medical, pre-dental, pre-theological, pre-legal; biology, chemistry, English, philosophy, classical languages, social sciences, mathematics.

## **FEES**

A complete list of fees may be found in the 1944-45 catalog. In general, expenses for the first semester do not exceed \$360; for the second, \$340. This includes tuition, board, room, books, and regular fees. Expenses for the Summer Session are usually not in excess of \$160. By arrangement with the Treasurer, refunds on a sliding scale are made to those who are forced to withdraw before completing a semester's work.

## **ABRIDGED CALENDAR FOR 1945-46**
